

Questions to ask

- Unlimited cheese/lettuce ????? diy salad
- No min ????? also diy salad
- Do staff actually periodically restock????? Soz we dont have any more bread left but you can have 3 patties between chees bc we have too much of it
- Can staff check how much inventory left???
- When do they restock or do we not care about company policy??? restock once a year cause lazy

// customer logs in

- *// sign up or sign in function*

customer sees the menu

- // menu is displayed after login
- // menu shows price
- // Low priority, menu is categorised

customer picks items from main menu

- pick burger or wrap
 - pick amount and type of bun
 - restricted by maximum allowable buns (triple = 4, double = 3, etc)
 - pick amount and type of patties
 - restricted by maximum allowable patties
 - Pick additional ingredients
 - Each ingredient has additional price
- total price on main is displayed

customer pickers from sides and drinks menu

- customer picks optional sides
- customer checks out
- customer is issued customer id
- Low Priority, customer is available to check cart whenever
- Customer can use id to check when order is ready
- Customer can use id to check status of their order

// staff logs in

- // sign in

Staff can view order whenever

Staff can update customer's order upon completion to indicate available to pick up

- Customer will see order update when they refresh the page
- Order disappears from staff order menu

Staff can also see inventory

- Inventory decreases accordingly when customer places an order
 - if ingredient is not available, customer will not be able to order it
- burgers, wraps and nuggets are stocked in whole quantities
- bottles drinks are stocked in cans (375ml) or bottles (600ml) or in varying sizes
- sides are stocked in weight

3. As a staff I want to be able to maintain the inventory of various ingredients so that all mains, sides and drinks are available during service times.
